

## **Introduction**

The Riphah Institute of informatics (RII) part of Riphah International University (RIU) has been established with a vision to play a leading role in indigenous development of information technology and software development in Pakistan.

One of the distinct features of RII is its need based curriculum corresponding & responding to the ground needs and requirement of the industry. The curriculum is designed with the international standards set by IEEE, ACM.

The faculty has 5 computer labs which are fully equipped with the latest and most modern apparatus. An online digital library ensures easy access to the latest research and information in their relevant fields to the students and faculty members.

## **The Academic Programs**

The academic programs at RII are designed keeping in view the current

and future requirements of the industry. The emphasis is on producing scientist, software engineers and IT specialists who not only have excellent theoretical knowledge but also have hands-on experience in their relevant fields. The RII offers different programs both at undergraduate and graduate level. The main programs with specialized fields are

### **PhD (CS)**

- Database
- Data Mining
- Machine Learning
- Software Engineering

### **MS (CS)**

- Database
- Data Mining
- Software Engineering
- Communication & Networks

### **BS (CS/IT/SE)**

- Computer Science
- Information Technology
- Software Engineering

## **RII Faculty**

The key intellectual source at RII is its faculty. All the faculty members are highly qualified with 03 PhDs and 12 MS's and 01 BS having extensive knowledge and experience of both industry and academia.

## **RII Unique Features**

- Scholarships/ Financial Aid
- Library Facility
- Computer Labs
- Cafeteria
- Photocopy Facility

## **Information Resource Center**

Information resource center comprises of a library, internet and audio-visual aids. Students have access to a wide collection of references, books and journals. Pakistan studies and Islamic books are also provided. In addition to audio-video cassettes and CDs, a large number of computer terminals have been setup where the students use internet for search purposes
